The revenue limit applies to any property taxing entities that have authority to exceed current 5.5% and the TABOR limit.

The Division of Local Government ("the Division") has developed technical assistance resources to assist taxing entities with the calculation of the property tax limit available online here (<https://dlg.colorado.gov/budget-information-and-resources>). Please understand that the Division has no statutory or administrative role in calculating or enforcing the property tax limit, and each taxing entity's revenue limits and voter approval history may be unique. The technical assistance resources provided by the Division with regard to the property tax limit are not definitive and not legal advice. Taxing entities may choose to calculate the property tax limit with a methodology that is different from the methodology presented in the Division's technical assistance resources. The Division always recommends that taxing entities consult with an attorney in order to understand and apply the various statutory and constitutional revenue limits that may apply to that taxing entity.

2026 Budget

**SPRING VALLEY METROPOLITAN DISTRICT NO. 3**  
**2026 BUDGET MESSAGE**

Spring Valley Metropolitan Districts 1-6 are quasi-municipal corporations organized and operated pursuant to provisions set forth in the Colorado Special District Act.

The Districts have no employees and all operations and administrative functions are contracted.

The following budget is prepared on the modified accrual basis of accounting.

The Districts were formed with the primary purposes of 1) to finance construction of public improvements as defined in the Service Plan for the Districts and; 2) to operate and maintain such public improvements that are not otherwise dedicated or conveyed to the County of other governmental entities and to provide for all or part of the Public Improvements, as defined in the District's Service Plan, for the use and benefit of all anticipated inhabitants and taxpayers of the Districts. District No. 1 is the District responsible for overall community administration, operations and maintenance, and Districts Nos. 2-6 will provide funding for such costs. District No. 1 is also responsible for construction of public improvements that benefit the overall community and Districts Nos. 2-6 will provide funding for such costs via the issuance of bonds, the proceeds of which are transferred to District No. 1 to fund the cost of the public improvements.

**Budget Strategy**

The District's strategy in preparing the 2026 budget is to strive to provide the scope of services defined in the service plan in the most economic manner possible.

**Revenues**

In 2026 the District will impose a total of 60.000 mills, adjusted for state-wide changes in property tax assessment calculations to 76.008 mills. Of this total mill levy, 63.272 mills are dedicated to debt service on the Series 2020 Bonds, 9.552 mills are dedicated for use by District No.1 for overall community operations, and the remaining 3.184 mills are levied as an operating mill levy that will generate property tax revenue to be used towards General Fund expenditures.

**Expenditures**

The District has adopted three separate funds: 1) a General Fund to provide for general operating expenditures; 2) a Debt Service Fund to provide for debt service on the Series 2020 Bonds and; 3) a Capital Fund to account for capital costs specific to the District.

The District has budgeted a portion of the fund balance in the General Fund to be set aside for Emergencies in accordance with the TABOR Amendment.

## INDEPENDENT AUDITOR'S REPORT

To the Board of Directors  
Spring Valley Metropolitan District No. 3  
Elbert County, Colorado

### Opinions

We have audited the accompanying financial statements of the governmental activities and each major fund of Spring Valley Metropolitan District No. 3 (the District) as of and for the year ended December 31, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of December 31, 2025, and the respective changes in financial position thereof, and the respective budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## **Auditor's Responsibility for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risk of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate to those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## **Required Supplementary Information**

Management has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinions on the basic financial statements are not affected by this missing information.

## **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplementary information as identified in the table of contents is presented for the purposes of additional analysis and legal compliance and is not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

## **Other Matters**

### *Economic Dependency*

As disclosed in Note 11 of the financial statements, the District has not yet established a revenue base sufficient to pay the District's operational expenditures. Until an independent revenue base is established, the District may be dependent upon the developer for funding continued operations.

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES  
OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES**

**For the Year Ended December 31, 2025**

Net change in fund balances - governmental funds: \$ (723,716)

Amounts reported for governmental activities in the statement of activities are different because:

The issuance of long-term debt (e.g. bonds, developer advances) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. The net effect of these differences in the treatment of long-term debt and related items is as follows:

|                                                     |             |

| Current year bond principal payment                 | 206,000     |

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

## **Spring Valley Metropolitan District No. 3**

### **NOTES TO FINANCIAL STATEMENTS**

**December 31, 2025**

#### **NOTE 1 – DEFINITION OF REPORTING ENTITY**

Spring Valley Metropolitan District No. 3 (the District) was organized pursuant to provisions set forth in the Colorado Special District Act. The District was organized in coordination with Spring Valley Metropolitan District No. 1 ("District No. 1"), Spring Valley Metropolitan District No. 2 ("District No. 2"), Spring Valley Metropolitan District No. 4 ("District No. 4"), Spring Valley Metropolitan District No. 5 ("District No. 5"), and Spring Valley Metropolitan District No. 6 ("District No. 6"). The purpose of the District is to provide for the design, acquisition, construction, installation and financing of water and sewer facilities, including storm drainage, street improvements, safety protection, park and recreation, transportation, television relay and translation, mosquito control and limited fire protection services. The governing body of the District consists of a five-member Board of Directors which is elected by the registered voters within the District.

District No. 1 provides management for all administrative and operations functions as well as construction or acquisition of infrastructure for all of the Districts. The District and District Nos. 2, 4, 5, and 6 ("Financing Districts") are responsible for providing funding for the construction and financing of certain facilities benefiting their respective districts. The water, sewer, and parks and recreation facilities will be retained by District No. 1 for ownership and operation. All other assets constructed are anticipated to be conveyed to other governmental entities for ownership and maintenance responsibilities. The Financing Districts will impose an operations and maintenance mill levy to assist the District in the costs of operations of the assets.

The Governmental Accounting Standards Board (GASB) has specified the criteria to be used in defining a governmental entity for financial reporting purposes. The reporting entity consists of (a) the primary government; i.e., the District, and (b) organizations for which the District is financially accountable. The District is considered financially accountable for legally separate organizations if it is able to appoint a voting majority of an organization's governing body and is either able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the District. Consideration is also given to other organizations that are fiscally dependent; i.e., unable to adopt a budget, levy taxes, or issue debt without approval by the District. Organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete are also included in the reporting entity.

Based on the criteria discussed above, the District's financial statements do not include any component units, nor do they exclude any potential component units requiring inclusion in the District's reporting entity, nor is the District a component unit of any other government. The District's financial statements include the accounts of all District operations.

### NOTES TO FINANCIAL STATEMENTS (continued)

December 31, 2025

#### NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

##### **Government-wide and fund financial statements**

The government-wide financial statements include the statement of net position and statement of activities. These financial statements include all of the activities of the District. The effect of interfund activity has been removed from these statements. Governmental activities are normally supported by taxes and intergovernmental revenues.

The statement of net position reports all financial resources of the District. The difference between the assets, deferred outflows of resources, liabilities and deferred inflows of resources of the District is reported as net position.

The statement of activities demonstrates the degree to which the direct and indirect expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customer or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for the governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

##### **Measurement focus, basis of accounting and financial statement presentation**

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Depreciation is computed and recorded as an operating expense. Expenditures for capital outlay are shown as increases in assets and repayment of developer advances are recorded as a reduction in liabilities. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenue to be available if they are collected within 60 days of the end of the current fiscal period. The major sources of revenue susceptible

to accrual are property taxes, specific ownership taxes, and intergovernmental revenues. All other revenue items are considered to be measurable and available only when cash is received by the District. The District determined that Developer advances are not considered as revenue susceptible to accrual. Expenditures, other than interest on long-term obligations are recorded when the liability is incurred or the long-term obligation is due.

The District reports the following major governmental funds:

*The General Fund* is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be reported in another fund.

*The Debt Service Fund* is used to account for the accumulation of resources for, and payment of, long-term bond obligations and developer advance principal, interest and related costs.

*The Capital Projects Fund* is used to account for proceeds from general obligation bonds and developer advances that are used to finance major capital improvements and equipment additions.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

#### **Use of estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires District management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

#### **Pooled cash and investments**

The District follows the practice of pooling cash and investments of all funds to maximize investment earnings. Except when required by trust or other agreements, all cash is deposited to and disbursed from a single bank account. Cash in excess of immediate operating requirements is pooled for deposit and investment flexibility. Investment earnings are allocated periodically to the participating funds based upon each fund's average equity balance in the total cash.

#### **Property taxes**

Property taxes are levied by the District's Board of Directors. The levy is based on assessed valuations determined by the County Assessor generally as of January 1 of each year. The levy is normally set by December 15 by certification to the County Commissioners to put the tax lien on the individual properties as of January 1 of the following year. The taxes are payable by April or if in equal installments, at the taxpayer's election, in February and June. Delinquent taxpayers are notified in August and generally sales of the tax liens on delinquent properties are held in November or December. The County Treasurer remits the taxes collected monthly to the District.

Property taxes, net of estimated uncollectible taxes, are recorded initially as deferred inflows of resources in the year they are levied and measurable. The property tax revenues are recorded as revenue in the year they are available or collected.

#### **Budgetary information**

In accordance with the Colorado State Budget Law, the District's Board of Directors (the Board) holds public hearings in the fall of each year to approve the budget and appropriate the funds for the ensuing year. The appropriation is at the total fund expenditures and other financing uses level and lapses at year end. The Board can modify the budget by line item within the total appropriation without notification. The appropriation can only be modified upon completion of notification and publication requirements. The budget includes each fund on its basis of accounting unless otherwise indicated.

The District amended its annual budget for the year ended December 31, 2025.

#### **Bond insurance and original issue premium/discount**

In the government-wide financial statements, bond insurance, bond premiums, and bond discounts are deferred and amortized over the life of the bonds using the effective interest method. In the fund financial statements, government fund types recognize bond insurance, bond premiums, and bond discounts during the current period. The face amount of debt issued is reported as other financing sources. Bond insurance, whether or not withheld from the actual debt proceeds received, are reported as expenditures. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

#### **Cost of refunding**

In the government-wide financial statements, the deferred cost of the bond refunding is amortized over the remaining life of the deferred bonds. The amortization amount is a

**December 31, 2025**

component of interest expense and the unamortized deferred cost is reflected as a deferred outflow of resources.

#### **Deferred outflow/inflow of resources**

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until that time. The District has two items that qualify for reporting in this category. Accordingly, the items, bond insurance and cost on refunding, are deferred and recognized as an outflow of resources in the period that the amounts are incurred.

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows or resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government has only one type of item, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, deferred property tax revenue, is reported in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

#### **Capital assets**

All capital assets purchased or acquired with an original cost in excess of the capitalization thresholds set by the District are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated assets are valued at their estimated fair value on the date of the donation. Repairs and maintenance are recorded as expenditures as incurred; while additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Most capital assets acquired have been or will be dedicated to other local governments in accordance with the District's service plan.

#### **Fund balances**

Fund balance for governmental funds should be reported in classifications that comprise a hierarchy based on the extent to which the government is bound to honor constraints on the specific purposes for which spending can occur. Governmental funds report up to five classifications of fund balance: nonspendable, restricted, committed, assigned, and unassigned. Because circumstances differ among governments, not every government or every governmental fund will present all of these components. The following classifications describe the relative strength of the spending constraints:

## Spring Valley Metropolitan District No. 3

### NOTES TO FINANCIAL STATEMENTS (continued)

December 31, 2025

*Non-spendable fund balance* – The portion of fund balance that cannot be spent because it is either not in spendable form (such as prepaid amounts or inventory) or is legally or contractually required to be maintained intact.

*Restricted fund balance* – The portion of fund balance constrained to being used for a specific purpose by external parties (such as grantors or bondholders), constitutional provisions or enabling legislation.

*Committed fund balance* – The portion of fund balance constrained for specific purposes according to limitations imposed by the District's highest level of decision making authority, the Board of Directors prior to the end of the current fiscal year. The constraint may be removed or changed only through formal action of the Board of Directors.

*Assigned fund balance* – The portion of fund balance that is constrained by the government's intent to be used for specific purposes, but is neither restricted nor committed. Intent is expressed by the Board of Directors to be used for a specific purpose. Constraints imposed on the use of assigned amounts are more easily removed or modified than those imposed on amounts that are classified as committed.

*Unassigned fund balance* – The residual portion of fund balance that does not meet any of the above criteria.

If more than one classification of fund balance is available for use when an expenditure is incurred, it is the District's practice to use the most restrictive classification first.

#### **Net position**

For government-wide presentation purposes when both restricted and unrestricted resources are available for use, it is the District's practice to use restricted resources first, then unrestricted resources as they are needed.

#### **NOTE 3 – CASH AND INVESTMENTS**

Cash and investments as of December 31, 2025 consist of the following:

| Total cash and investments           | \$ | <u>53,314</u> |

#### Deposits with Financial Institutions

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool for all the uninsured public deposits as a group is to be maintained by another institution or held in trust. The market value of the collateral must be at least equal to 102% of the aggregate uninsured deposits.

The State Commissioners for banks and financial services are required by statute to monitor the naming of eligible depositories and reporting of the uninsured deposits and assets maintained in the collateral pools.

At December 31, 2025, the District's cash deposits had a bank balance of \$9,107 and carrying balance of \$30,107.

#### Investments

The District has not adopted a formal investment policy; however the District follows state statutes regarding investments.

The District generally limits its investment to those which are believed to have minimal credit risk, minimal interest rate risk and no foreign currency risk. Additionally, the District is not subject to concentration risk disclosure requirements or subject to investment custodial credit risk for investments that are in the possession of another party.

Colorado revised statutes limit investment maturities to five years or less unless formally approved by the Board of Directors. Such actions are generally associated with a debt service reserve or sinking fund requirements.

Colorado statutes specify investment instruments meeting defined rating and risk criteria in which local governments may invest which include:

- Obligations of the United States, certain U.S. government agency securities and securities of the World Bank
- General obligation and revenue bonds of U.S. local government entities
- Certain certificates of participation

#### **NOTE 9 – RISK MANAGEMENT**

The District is exposed to various risks of loss related to torts, thefts of, damage to, or destruction of assets, errors or omissions, injuries to personnel, or acts of God.

The District is a member of the Colorado Special Districts Property and Liability Pool (Pool). The Pool is an organization created by intergovernmental agreement to provide property, liability, public officials' liability, boiler and machinery and workers compensation coverage to its members. Settled claims have not exceeded this coverage in any of the past three fiscal years.

## **Spring Valley Metropolitan District No. 3**

### **NOTES TO FINANCIAL STATEMENTS (continued)**

**December 31, 2025**

The District pays annual premiums to the Pool for liability, property, public officials' liability and worker's compensation coverage. In the event aggregated losses incurred by the Pool exceed amounts recoverable from reinsurance contracts and funds accumulated by the Pool, the Pool may require additional contributions from the Pool members. Any excess funds which the Pool determines are not needed for purposes of the Pool may be returned to the members pursuant to a distribution formula.

#### **NOTE 10 – TAX, SPENDING AND DEBT LIMITATIONS**

Article X, Section 20 of the Colorado Constitution, referred to as the Taxpayer's Bill of Rights (TABOR), contains tax, spending, revenue and debt limitations which apply to the State of Colorado and all local governments.

Spending and revenue limits are determined based on the prior year's Fiscal Year Spending adjusted for allowable increases based upon inflation and local growth. Fiscal Year Spending is generally defined as expenditures plus reserve increases with certain exceptions. Revenue in excess of the Fiscal Year Spending limit must be refunded unless the voters approve retention of such revenue.

TABOR requires local governments to establish Emergency Reserves. These reserves must be at least 3% of Fiscal Year Spending (excluding bonded debt service). Local governments are not allowed to use the Emergency Reserves to compensate for economic conditions, revenue shortfalls, or salary or benefit increases.

On November 4, 2004, a majority of the District's electors authorized the District to collect and spend or retain in a reserve, all currently levied taxes and fees of the District without regard to any limitations under TABOR.

The District's management believes it is in compliance with the provisions of TABOR. However, TABOR is complex and subject to interpretation. Many of the provisions, including the interpretation of how to calculate Fiscal Year Spending limits, will require judicial interpretation.

#### **NOTE 11 – ECONOMIC DEPENDENCY**

The District has not yet established a revenue base sufficient to pay operational expenditures. Until an independent revenue base is established, continuation of operations in the District will be dependent upon funding by the Developer.
